

**Picturing cleaner air is easy.**

**Making it cleaner can be, too!**

**SIMPLE STEPS TO CLEANER AIR**

**- SIGN UP FOR AIR QUALITY ALERTS -**

**Air alerts are sent out the day before the air quality is expected to be poor, so you'll have plenty of time to plan your day accordingly.**

**You can sign up for FREE at [www.CleanAirPartnership.info](http://www.CleanAirPartnership.info).**

**- TRY TRIP CHAINING -**

**Combine errands and reduce or postpone trips in your car. Making one trip in the car to take care of several errands will help conserve gas and reduce pollution.**

**- TURN THE KEY & BE IDLE FREE -**

**Schedule your day to avoid peak traffic times; skip the drive thru at banks and fast food restaurants; and turn off your engine while waiting to pick up or drop off kids at school.**

**- CUT OUT THE LAWN MOWING -**

**Postpone using gas powered lawn equipment on Air Alert Days and consider investing in electric or manual equipment.**
